

FEATURES

Nordic Giant is high-capacity, powerful backhoe dredger designed for dredging in all kind of materials under heavy working conditions. It has several monoblock / stick / bucket combinations for optimising production in different materials and at various depths.

CONSTRUCTION / CLASSIFICATION

Built by	Port Said Shipyard / Turku Repair Yard
Year of construction	1999 / 2002
Classification	B.V.I. Hull Special service / Dipper dredger / NP
Working area	Dredging within 15 miles offshore or 20 miles from port

PORT OF REGISTRY / OWNER

Port of registry	Limassol, Cyprus
Owner	Boskalis Westminster Shipping B.V.

MAIN DATA

Gross tonnage	GRT 1090
Length	o.a. 55,0 m, measured 52,80 m
Breadth	17,0 m
Moulded depth	4,0 m
Draught	3,0 m
Crane	Liebherr 995 (1999)
Installed power	1900 kw, total
Bucket sizes	6 – 22 m ³ , environmental buckets 16 m ³ and 25 m ³
Dredging depth	26,0 m, max.
Water depth for spuds	28,0 m, max.
Equipment	<ul style="list-style-type: none"> • Computerised excavation monitoring control • DGPS / RTK positioning • Deck crane • AIS
